CANADIAN
COMMEMORATIVE
MEDALS and TOKENS

FIFTH ANNUAL LISTING

by Clifford Mishler

Acknowledgments

As has been the case in past years, this publication would not be possible, except for the great number of gracious individuals who have shown their interest by providing invaluable information regarding new issues. The list of these individuals has become too numerous for individual credit to be given here. To these numberless contributors should go the real credit for the compiling of a listing such as this one.

EDITOR'S VIEWS AND COMMENTS

Although woefully late, this 1962 listing is finally making its appearance. Many factors have brought about this delay, not the least of which has been laziness on the part of the editor.

Since the 1961 annual listing was published well over a year ago, and the monthly listing was inaugurated in January of this year, I have made a move which dictates a change in my activities. One of these is the discontinuance of sponsorship of the medal and token listings I first introduced, starting with the 1958 issues.

The monthly listings of 1963 issues continued through August, at which time the monthly publication idea was dropped. However, a supplement to be issued early in 1964 will complete the listing of 1963 issues. Thus, there will be a complete listing of 1963 issues, and it will be available at $5.50.

Starting with the 1964 issues, a regular feature in the TAMS Journal will replace the listings I have published for the previous six years. This feature will appear under my editorship, through an arrangement with TAMS president Paul Hamm, and the Journal editor Al Hoch.

Anyone not presently a member of the Token and Medal Society should join, as their 32 page quarterly Journal contains numerous worthwhile articles on token and medal subjects. Dues are $3.00 per year, with a $1.00 initiation fee. The secretary is William B. Spilman, P. O. Box 1122, Waynesboro, Virginia.

Where in the past I have been able to take the time to search out the elusive issues, I will no longer be able to take the time necessary for this in the compiling of the new presentation. Instead I will be depending primarily on those items which cross my desk as exonumist editor of Numismatic News, and those reported to me by interested collectors.

It is recognized by the editor that this 1962 listing is not as complete as previous editions have been. However, it is planned that in due time it will be brought up to date, this being accomplished in

(continued on page 44)

RULES FOLLOWED IN CONSIDERING MATERIAL FOR LISTING

1. Must be issued in commemoration of an event of local, state, or national importance.

2. No pieces issued in commemoration of the anniversary of a private firm are listed, unless they also commemorate an event of local, state or national importance.

3. Pieces issued by any numismatic clubs, associations, or societies, in commemoration of anniversaries, conventions, or any event.

4. Convention badges which have medallions attached as pendants are not included unless they fit in with a series of medals commemorating the same event. Then only the actual medallion itself is listed.

5. Pieces commemorating formal dedications, grand openings, etc., of public buildings, memorials, etc.

6. The anniversary, convention, and other medals issued by organizations such as the Masons will be listed.

7. Any piece which is listed must bear the date of the current year, or if not the actual date, there must be some reference to the date.

8. Pieces which are listed must be made by compressing a material between two dies, thus the piece has an irregular surface, rather than a printed one like wooden-nickels. In most cases this material will be a metal, although in some cases a plastic or fiber material is used, and perhaps in some cases other materials are used.

9. Looped pieces are not eligible for listing, unless they are also available un-looped; while holed pieces will be listed even if they are not available un-holed.

10. Plated varieties of listed pieces are not listed, unless the plated pieces were issued by the original issuer, rather than an enterprising individual as is often the case.

11. Any pieces which are listed must qualify under some of the provisions set forth above, although it is not necessary that all of the conditions are met.

INTRODUCTION

In order to explain the numbering system used in this listing, the following number is used as an example:

62 . M . 02 . 01a (the number)
— — — —
1 2 3 4

PART 1. This number, the last two digits in the current calendar year, indicates the year in which the piece was issued, this case of course indicating the year 1962.

PART 2. This letter indicates rather the piece is a medal or token; M, for medal and, T, for token. I have classified the pieces under the medal heading if they have no indication of value, or were not used as money during the celebration of the event commemorated. It is classified as a token if it does have a indication of value, or was used as money during the celebration of the event commemorated.

PART 3. This number indicates the state or province in which the piece was issued, as follows:

01 - Alabama
02 - Alaska
03 - Arizona
04 - Arkansas
05 - California
06 - Colorado
07 - Connecticut
08 - Delaware
09 - Florida
10 - Georgia
51 - Hawaii
11 - Idaho
12 - Illinois
13 - Indiana
14 - Iowa
15 - Kansas
16 - Kentucky
17 - Louisiana
18 - Maine
19 - Maryland
20 - Massachusetts
21 - Michigan
22 - Minnesota
23 - Mississippi
24 - Missouri
25 - Montana
26 - Nebraska
27 - Nevada
28 - New Hampshire
29 - New Jersey
30 - New Mexico
31 - New York
32 - North Carolina
33 - North Dakota
34 - Ohio
35 - Oklahoma
36 - Oregon
37 - Pennsylvania
38 - Rhode Island
39 - South Carolina
40 - South Dakota
41 - Tennessee
42 - Texas
43 - Utah
44 - Vermont
45 - Virginia
46 - Washington
47 - West Virginia
48 - Wisconsin
49 - Wyoming
50 - District of Columbia
51 - Hawaii
52 - Panama Canal Zone
55 - United States (general)

61 - Alberta
62 - British Columbia
63 - Manitoba
64 - New Brunswick
65 - Newfoundland
66 - Nova Scotia
67 - Ontario
68 - Prince Edward Island
69 - Quebec
70 - Saskatchewan
71 - Yukon
75 - Canadian (general)

PART 4. This number indicates the individual number of the piece. Each piece of a different design is given a new number, even if the issuer is the same; also, even when the design is the same, only it is struck on a different size planchet, a new number is given. A small letter following this number indicates that a piece of the same design, size, and issuer was struck in more than one metal; the letters are also used to indicate pieces with or without and with different sizes of keychain holes, loops, etc. If there is a

minor variation in the placement of inscriptions, or a variation in the spelling of words, a letter is also assigned rather than a new number.

So, the number used in the example above indicates a medal issued in Alaska during 1962. It is the piece which was issued to commemorate the 50th anniversary of the Alaska Native Brotherhood, and issued by that organization.

Below the numbers are listed some details regarding the pieces. To explain this system the following example from 62 . M . 02 . 01a will be used:

39 - Bo - wn - 25

1 2 3 4

PART 1. This number indicates the diameter of the piece in mm's.

PART 2. These letters indicate the metal or finish in which the piece was struck.

A - aluminum	C - copper	o - oxidized
a - anodized	G - gilt	P - platinum
B - bronze	g - gold	p - plated
b - brass	N - nickel-silver	S - silver

PART 3. These letters indicate the name of the firm which struck the piece.

PART 4. This number indicates the number of copies which were struck of the piece. The figures are given in hundreds, with the 00's omitted.

a-approximately ma-maximum
mi-minimum ul-unlimited

So, the details used in the example above indicate that the medal has a diameter of 39mm, is struck in an oxidized bronze finish, with the striking being done by Wendell-Northwestern, and 2,500 copies were struck.

Following the "**O:**" mark is the description of the obverse, and likewise following the "**R:**" mark is the description of the reverse.

Below the obverse and reverse descriptions, in parenthesis, are listed information on the name of the designer, the issue price, the name and address of the issuing agency, and various other information.

Common token reverse styles are no longer being illustrated or described. Now only those tokens which portray special devices on the reverse have this side of the piece illustrated on the plates, and only those with interesting lettering are described.

(continued from page 2)

the listings of new issues which are to be incorporated in the TAMS Journal.

After taking the photographs for the United States medal section of this listing, and examining proofs of the plates made from them, it was obvious that the quality would be below par. With this in mind, it was decided not to include photographs of all the pieces in the other sections. However, this should not detract greatly from the value of the listing, as the full descriptions are given, along with the detailed background information, and these latter items certainly comprise the most valuable features of the listing.

All things being equal, I have had six enjoyable years of corresponding with collectors in the presentation of these annual listings. Even though it has been a break-even project, or perhaps a little less than that even, I have experienced many enjoyable moments, and I feel satisfaction in a job which I personally feel has been done quite well.

In these six years the hobby of collecting medals and tokens has taken some remarkable strides forward, and even a few backwards. Certain purely commercial ventures have slapped the current issues quite hard, and this has had an effect on the older issues also, but I feel certain that within a short time all categories will be once again advancing stronger than ever. Certainly future generations will find the issues which we now know as "modern pieces" every bit as interesting as those old pieces we now honor.
